

## How do I create a new account in the StoryCorps app?

You can create an account through either the StoryCorps App or [archive.storycorps.org](https://archive.storycorps.org). The same account will allow you access to both [platforms](#). (When using StoryCorps Connect you'll be prompted to make an account on [archive.storycorps.org](https://archive.storycorps.org) before you begin.)

You can create an account using your email address, username, and password **or** by connecting your Facebook account. Please note that you should not set up an account using both options, as you will end up creating two different accounts.

### Create your account through the StoryCorps App

Note: If you've already created an account on [archive.storycorps.org](https://archive.storycorps.org), please log in with that account to avoid making duplicate accounts.

To create an account from the app:

- Download the StoryCorps App and open it on your device.
- Swipe left through the information about using the app.
- On the final screen, press the button “New to StoryCorps? Sign Up.”
- If you'd like to use Facebook to log in, click the blue “Sign Up with Facebook” button at the top.
- Otherwise, follow the prompts to create a username and password and enter your information.

Please remember that your username cannot be changed! Select a username carefully.
